Brain avatars — robot heads

A companion-robot variant of the Brain avatar: a glossy white head with glowing ear rings and a dark visor whose eyes shift shape to read mood and activity.

← Orb variant Faceted-visor variant

State

Idle | Thinking | Speaking | Happy | Working | Attention | Error | Sleeping | Exploring

Glow color

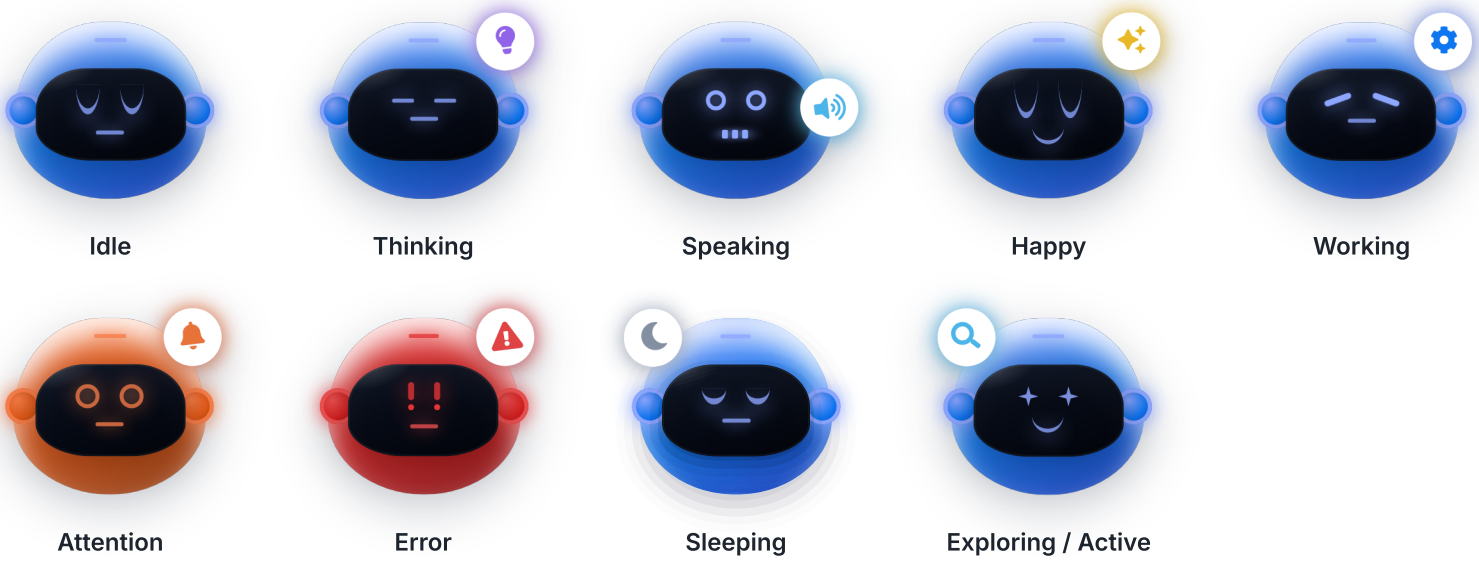

Speed

slow | balanced | energetic

Visual state matrix

State	Eyes	Mouth	Floating symbol	Accent	Meaning
Idle	Soft closed arcs	Flat	—	Chosen color	Available, waiting, at rest.
Thinking	Narrow dashes	Flat	Lightbulb (pulsing)	Purple	Forming an idea, reasonin
Speaking	Pulsing rings	Talking bars	Sound wave	Teal	Actively responding by vo
Happy	Deep smiling arcs	Smile	Sparkle	Yellow	Positive feedback, succes
Working	Focused diagonals	Flat	Spinning gear	Azure	Executing a task — distinc from Thinking.
Attention	Wide static circles	Flat	Bell (ringing)	Orange	Notice this — not a failure.
Error	Exclamation marks	Flat	Warning triangle	Red	Something failed, needs action.
Sleeping	Thin closed arcs	Flat	Z’s + moon	Neutral (dim)	Inactive, resting.
Exploring	Sparkle/diamond	Open smile	Magnifying glass	Teal	Discovering, curious — no Excited.

Can you summarize this quarter's cash flow trend?

Cash flow is up 8% month over month, driven mainly by receivables collection.

Byte is thinking...
